

Provides enterprise-grade privacy by design to protect your and your customer's data in compliance with SOC 2, HIPAA and ePrivacy (GDPR).

› **Single Sign-On (SSO)**

Simple and secure access to parcelLab's portals for unlimited users, provisioned by your own SSO provider (support today is limited to: Azure AD SAML 2.0 and Google OAuth).

› **Certifications**

All data is processed and managed in compliance with SOC 2 type II, HIPAA and ePrivacy (GDPR), ensuring enterprise-grade data security and compliance.

› **Privacy by design**

Data privacy and security are at the heart of parcelLab's design. Our Platform is designed around best-practices on reducing data exposure, limited data retention, secure data transfer, and secure authentication.
